MINE MOB QUELLED BY INDIANA SHERIFF

Disperses 2,000 Coal Miners Surrounding 40 Battered Non-Union Men

NEW PORT, Ind., June 29 - No need for state tranger I've got the situation well in hand." Thus did Harry Newland, doughty

sheriff of Vermillion county, today squelch moves to bring militia to quelt cioting in the Bono mine region, 14 rioting in the Bono mine region, 14 miles southwest of here.
Single-hunded, the middle-aged of-neer late sectority dispersed a snaring mob of 2,000 coal miners auromating 10 battered and bleeding non-unon workers. His timely arrival probably prevented scenes such sawer content in the Herrin, 1B, missacre of 1922.

Foremsting a grand jury investigation, the sheriff today sud affidavits by injured men will be tiled in the ricuit court against a number of the rotters.

Union miners who took part in the himonstration arrived in more than 200 automobiles, some from points as ar as southern Illinois and Indian-

far as southern Hilmons and Indiauapolis.

When Sheriff Newland reached the
seene he found 40 bruised and bleeding non-union men surrounded by a
milling, swearing mob. Pushing his
way into the midst of the throng, the
gram faced officer by sheer physical
courage cowed the mob and sent its
members slinking away.

ANNOUNCING

De Luxe Ambulance Service

WE are pleased to announce the addition of a new custom built National Kiesel Ambulance to our service facilities

This car, custom built entirely for the Schaffner-Queen Company, has embodred in its design and construction every modern and advanced feature in accord with the highest type of ambulance equipment found to further the convenience and comfort of the patient. The entire chassis is cushioned in lubber which makes it especially quiet and easy riding. A specially designed frame is employed which causes it to be hung low to the ground and eliminates any danger of tipping on bad roads or at high speeds in cases of emergency. In addition large oversize Hydraulic four wheel brakes are used as an extra safety precaution

The body design is more like a luxurious limousine than an ambulance It is finished in a hand-polished duco in a beautiful shade of Gray which gives it a satin-like appearance and carries out its beauty and dignity in a very fine manner The patient compartment, equipped with electric fans, is finished in genuine Spanish leather. The window shades are likewise made of a washable fabric which makes it possible to keep it clean and in a sanitary condition at all times. The car is comfortably heated for colder weather.

A complete emergency kit provides everything which might be needed by a doctor or nurse. Complete thermos bottle equipment is present, also The cot is cushioned on springs with an air mattres. In fact everything known to science has been added for the comfort of the patient. Trained attendants assure courte-

This beautiful car is fully in accord with the effort of the Schäffner-Queen Company to make its service facilities the finest in every way. For either local or long distance calls the service is available twenty-four hours of the day.

Unceasing Miracles

A SERMONETTE

BY THE REV. WM, J. SPICKERMAN Pastor, St. Mary's Catholic Church,

THE Gospel according to St. Mark records in the eighth chapter that Our Lord had compassion on the multitude that had listened to 11th discourses for three days and had nothing to eat. He refused to send em away fasting to their homes for fear they would faint on the way; for some of them came from afar off."

We do not read of any of them complaining or making a single request, nor is it known that the Apostles realized the extreme want suf-Jeved by that immense crowd. Jesus alone realizes, pities and provides for them. Even the Apostles thought it impossible to satisfe the multitu'e in that deserted locality. Hence they remarked to Our Saviour, "Whence can any one satisfy them with bread here in the wilderness?"

Our Lord made no further reply to the Apostles, and without further ado almply neked them how many loaves they had. Hearing that they had but seren, He commanded the crowd to sit down upon the ground, Then taking into His adorable hands first the loaves and then the ushes, He blessed them, broke them, and gave to His disciples to distribute smoon the multitude autrounding Him. Wonderful to relate, by the contact of His sacred hands, the loaves and the fishes were multiplied in such a manner that four thousand persons ate and were satisfied. So great was the abundance of that marrelous repost that of the frauments ther gathered up seven basketsful. This act of omnipotence fills the soul

But does not our Lord continue to renew every day a miracle simflar to the one He performed in the desert? Observe the farmer. He scatters a few seeds in the soil and in the harvest he gathers these seeds marcelously multiplied into his granary. Is not this a prodigr equal in substance, but different in form?

Who produces this wonderful multiplication? Is it perhaps the work of the husbandman, the fertility of the earth, the warmth of the aun, the temperate breezes of the air, and the moisture of the rain? No, it is Almahty God alone who employs these means to accomplish the great wonder. Divine Providence is continually multiplying the seed in order to supply His needy creatures with food, just as the Divine Master multiplied a few loaves and fishes in the desert to feed the hungry

The wonder afforded us by our fields does not surprise us. It pro duces little or no impression on the soul, because it is a frequent, ordipary and continual occurrence. Yet it is just as inexplicable and grandioze as the one our Lord performed near the shores of Lake

Courtesy and Consideration.

The new reflecting Stop lights have been erected through the elly at the approaches of intersecting to through streets and the new tracolored electric signals will be instailed and in operation within a few days

this improvement to the city's trailie age tem has not been without considerable cost to the taxpayers but the cost of installation and maintenance will be money well invested nublic shows by conforming to them its appreciation of the signs and lights

Such signals as those just erected and those to be installed next week are not in tended as an incompenience to or hardship on the public. They are not intended to catch the unwary They are for the convenience, safety and protection of all motorists and pedestrians altke

If our people will accept them as accuts for their and and protection conforming to the messages they carry it will work not only for the protection, but also the speeding up of both vehicular and foot traffic for when both motorists and pedestrians are shown by experience that the signs and signals are generally observed the wave of both classes will be decidedly smoothed

Of course, we do not expect to see the new truffic guides remove all the trailic exils from which we suffer No city is without its morans who take delight, seemingly in going contrary to traffic signs and Marion is no ta ception to other cities in having its quota of illy bred motorists who do not appreciate or are indifferent to the Imposition they work on foot traffe by hogging crossings when wait ing for through traffic to pass or for the change in traffic signals. But if the authorities will wake up and pry a little illention to such offenses these exils may be removed

The big ching however is a state of feeling on the part of motorists and pedestrians allko wherein each class has the wish to be mutually courteous and considerate of the rights of the other.

On Criminals and Pacificism.

It is a matter of some difficulty to decid thich is the more refrest us the pronounce | meat of the MI soul sor I of the lutheran thurch in national convertion at Concordia callege on pacifician or hat of he asime body on the treatment of iminal-

Dr Villiam v Mair of St Louis spokesman for the syno expressed the lutheran position in the conatters which is most decidedly a departure om the present day trend in many of the hurck organize tions of the land. The Luther in church deployed ir and he unspeakable sorrow which come in its wake the doctor continued thought of brutal carnige must be repulsive to every Christian who knows and feels Chilsts admonition that we love one an other But any chil government is oiliged to protect the lives and property of its est rens and for this reason the lutheran hurch takes the position that wir abborrent as it is may be justifiable and necessar

There may be and doubtless are miny and out of church organizations who will not taree with the Lutheran position ofther the treatment of criminals or on the subject of possible justification of war As n matter of fact many church organizations are simply impregnated by pacificism and are propagandizing to aproad pacificistic ideas and practices. BY GROLE PATTERSON

Some of the most vital changes at the new acrid in which we are living are changes which we little notice. For example, the new-papers used to have much o print about strikes and other unhappy de elopments in industry. We rarely hear of striags now in the builted States. When the more intelligent employers came to their senses and reasonable hours meant contented men and women with money to spend and a more widely distributed prosperity times rapidly changed. It too gener ations for employers to arrive at this conclusion.

Courtesy and Consideration.

The new reflecting "Stop" lights have been erected through the city at the approaches of intersecting to through streets and the new tri-colored electric signals will be installed and in operation within a few days,

This improvement to the city's traffic system has not been without considerable cost to the taxpayers, but the cost of installation

Such signals as those just creeted and those to be installed next week are not intended as an inconvenience to or hardship on the public. They are not intended to catch the unwary. They are for the convenience, safety and protection of all, motorisis and pedestrians alike

If our people will necept them as agents for their aid and protection, conforming to the messages they carry, it will work not only for the protection, but also the speeding up of both vehicular and foot traffic, for when both motorists and pedestrians are shown by experience that the signs and signals are generally observed, the ways of both classes will be decidedly smoothed.

Of course, we do not expect to see the new traffic guides remove all the traffic evils from which we suffer. No city is without its morons who take delight, seemingly, in going contrary to traffic signs, and Marion is no oxception to other cities in baying its quota of illy-bred motorists who do not appreciate or are indifferent to the imposition they work on foot traffic by hogging crossings when waiting for through traffic to pass or for the change in traffic signals. But if the authorities will wake up and pay a little attention to such offenses, these evils may be removed

The big thing, however, is a state of feeling on the part of motorists and pedestrians alike wherein each class has the wish to be mutually courtoons and considerate of the On Criminals and Pacificism.

It is a matter of some difficulty to decide which is the mare refrest 45; the pronouncement of the Missourl speed of the Lutheran thurch in national convertion at Concordia college on pacifickin, or hal of the same body on the treatment of aminate.

Dr. William A. Mair. of St. Louis, spokesman for the eyeo expressed the furtheran position in these natters which is most decidedly a departure from the presentday trend in many of the church organizations of the land. As ap fullman for the organization, Dr. Maler made ; lain that it was wholy against pacificism and out of all same pathy with the coddling of it minals and the ascribing of oriminal acts and tendencies to new-fangled diseases.

"The church opposes organized efforts to abolish the death penalty, because there efforts are opposed to the teachings of the Bible both in the Old and New Terraments." Dr. Maler declared. "It is appare ' that moves toward the softening of law live been conducive to increased lawlerence. The Lutheran church has no sympathy for the fashionable and popular mode of coddling criminals."

Having presented his church's position on the treatment of criminals, Or Majer made its position on pacificism equally plain, stating that there is no tendency toward a "milk-fed pacificism" among Lutherans, citing seripture in defense of the church's position, He held the "No More War" clamer, together with the scrapping of national defenses, to be a procedure inconsistent with Biblical admonition and national prudence "Why ery 'peace' when there is no peace?' is the question he said the Lutheran church asked.

"The Lutheran church deployes war und he unspeakable surrow which comes in its wake," the doctor continued "The very thought of brutal engage must be repulsive to every Christian who knows and feels Christ's admonition that we love one unother. But any civil government is obliged to profest the fives and property of its citlzeus, and for this reason the Lutheran thurch taken the position that war, abborrent as II is, may be justifiable and necessary"

Spanish Aviators Rescued.

The world rejoices that Mayor Ramon Franco and his three companious, who happed off from Cartagena, Spain, a week ago Friday to cross the Atlantic by the way of the Azoles and Newfoundland, have been picked up by the Biltish airplane carrier, Eagle, and are in seemingly good physical condition despite the many hardships suffered by them as a result of being the playthings of the sea for a week.

Even though it may be left that there is nothing to be gained to the cause of aviation from such flights as the Spanish quartet attempted; even though they may be the height of folly in the light of the great risk involved, the world is glad that the four are not to be added to the long list of air victims of the sea. And as for the probable feeling in Spain over the rescue, coming as it dld at a time when hope was about abandoned, we may best appreciate that when we secall how we of America felt, some years ago, when the crew of one of our airplanes was rescued after drifting for something like ten days well out toward the middle of the broad Pacific.

It is a singular phase of the rescue of the four Spaniards that, while the sea had been fairly combed much farther away by Spanish, French and British vessels, they were picked up by the Eagle within a hundred miles of the island of Borta in the Azores, which they had planned as the goal of their first hop.

MORE STOWAWAYS.

Onco upon a time, in response to lead and prolonged outeres of distress from the farming population of a certain country, the lawinghets made propriations to launch two rehef planes. One was called "The Spirit of Agricultural Marketing" and the other was called "The Spirit of Tariff Revision, Limited." The best machine experienced the or linary truds and delays incident to such an undertaking. For a long while the two motors, house and senate, continued to sputter against each other. There was a good deal of dumping of gasaling and studying of weather charles, and there was other. There was a good deal of dumping of gast tino and studying of weather charts, and there wa

him and studying of wenther charts, and there was one anxious moment when the plane seemed hended for the relegiant wives outside the field, but the machine succeived in getting away, to the relief of the spectators if not of the formers. "The Spirit of Latiff Revision, Limitad," had no such luck. Again and again it tried to rise from the ground, but furled. The tail of the machine diagreed so heavily that it seemed as if the fiscellage would be turn in two. Thereupon an inspection was ordered and carried out with the most surprising results.

surprising results.
Out of the fail of "The Spirit of Tariff Re-Out of the tail of "The Spirit of Tariff Revision, Lamited" which was supposed to carry a few chicken sandwiches for the invigators and finel in the form of high agricultural duties, the police proceeded to drag an endless line of stownaways. They vanked out, by the lext a couple of heavy roustalouts named 'Shingles" and "Bricks' They then reached in deeper and hauled out, in quick succession, a number of notorious iddies and incredo-nell—"Cement," 'Hides' and "Leather," 'Boots' and "Shoes," 'Clothespins' and "Swing Thread" "Cotton Goods' and "Weelens," In the Chemical family alone they pulled out no less than thirty three

The situation was so serious that the flight of The Spirit of Tariff Revision" was postponed till the end of the summer, in the hope that enough of the slowaways could be got rid of to permit the plane to rise. But that all the punhandler schedules would be eliminated was the expectation only of boys and grils in the lowest two elementary grades.—New York Times.

Those of us who have had to practice hear on end until our flugers just ached have good reason to remember the name of Karl Czerny. Secretises are still considered fundamental part of one's musical educated Karl Czerny was all Austrian planet and composer. He was born at Vienus on February 21, 1791 and received his early timing from his father, who was a piano toucher At the tender age of aline he gave his first concert and at fourteen had embarked on his career as tencher.

Czerny was an especial favorite of Beethoren, and also learned much from his association with Clement and Hummer. Perhapicarly's greatest claim to distinction is that he was selected as the first to play Beethoren's colebrated "Emperor Concerto" in public. In a city which teemed with musicians and teachers, Czerny was perhaps the most portural teacher of planoforts of his time. Amost his pupils may be numbered the great Listi Unlike most other planists and composens Czerny seldom left his malive city. Not only Liezt but many other innous composers and planists owe their received took no pupils who did not develop special talent. Outside his teaching he devoted his time to self-improvement, composition and his erary work associated with musical inferest. Czerny's was a gentle and senatitie nature, and to a great extent, this prevented but following a public career. He was unmaribed an only child and lived always with his prents in whose home he was accustomed to string concerts by his best pupils. Beethore frequently attended these concerts, and and so impressed with the tranquility and domesticity of Czerny's home that he eaked the privilege of living there. This plan was the trated by the illness of Czerny's parents.

Karl Czerny died in Vienna on July in 1857 and left his fortune, which was considerable to the Vienna conservatory and various benevolent institutions.

Are you drudging along through the hot summer days, when for such a small sum you could have the freedom from cleaning burdens that the popular-priced Model 543 Hoover can bring?

Its low price is but one of the features which make its purchase so convenient. The down pay. ment is only \$6 25, the balance is payable monthly. And there is liberal allowance for your old cleaner.

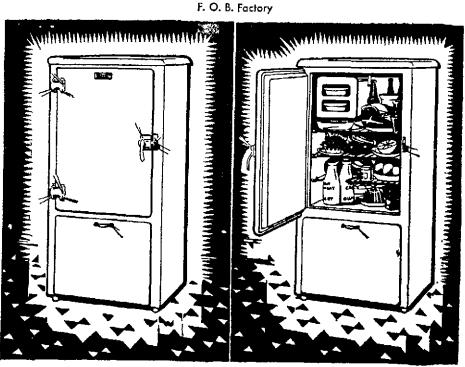

Remember-there is another advantage about Hoover ownership which is not elsewhere obtainable When you buy The Hoover you get the cleaner that removes the most dirt per minute!

ANNOUNCING ELECTRIC REFRIGERATION'S GREATEST TRIUMPH

SILENT KELVINATOR Four

for only

NOW ON DISPLAY AT OUR SHOWROOMS

It is here today. The new low-priced Kelvinator Four-climax of Kelvinator's 15 years' manufacturing and research designed to bring automatic electric refrigeration within the reach of all.

A big full-size, self-contained cabinet with nearly 9 square feet of shelf space, embodying traditional Kelvinator quality in beauty of design, in proven reliability, in rugged construction and true silence of operation.

This New Kelvinator Four is built for a lifetime of reliable, low-cost service. Made of heavy Parkerized (rust-proof) furniture steel, the cabinet is thickly insulated to retain an unvarying degree of cold for the healthful preservation of food.

The interior is of finest white porcelain, sanitary and easily cleaned. The New Silent Kelvinator mechanical unit is located in the base of the cabinet. All food shelves are at convenient, non-stooping level.

Once you install this new Kelvingtor Four. you will know the economy, the healthfulness and the convenience of Kelvinated foods. Milk is kept pure and sweet. Greens and salads are fresher, more crisp, more inviting. Spoilage is eliminated, thus conserving the family budget.

Entirely automatic, the new Kelvinator Four maintains the correct refrigerating cold by thermostat control. No regulation needed. Quick freezing of desserts, ice cubes ... and a bountiful supply of ice cubes, summer and winter alike.

The new Kelvinator Four is the electric refrigerator you have long wanted at the low est price ever placed on Kelvinator quality,

See it today and note its many exclusive features. Have it installed now, on the basis you can afford by taking advantage of our attractive monthly budget plan.

# Since January first idea in automobile buying has taken America by storm

The New Pontiac Big Six has been called the "step-up" car because it enables forward-looking people to step up in motor car quality without leaving the low-priced field. And since the first of the year, when the new Pontiac was announced, the step-up idea in automobile buying has taken America by storm.

# TRUE FIVE YEARS AGO AND STILL TRUE

Daring to go back five years when the first Chrysler appeared, Chrysler can read without apology every promise made then, for every promise has been fulfilled

In 1924 Chrysler was new Its claims for performance, economy and stamina had not been proved valid by the hundreds of thousands of cars and millions of miles of driving that support today sleadership

True, the automotive industry was startled by Chrysler innovations. The public trend was to Chrysler if only because Chrysler instantly out moded other curs. Comprehensive tests had convinced Chrysler engineers that they had built a superior

product. Chrysler owners before long discovered that the car upheld every promise made for it, and their eagerness to testify to its speed, its power and its strength resulted in the prevailing world wide acceptance of Chrysler

Now, in 1929, the public's confidence in Chrysler is still unwavering You, too, will discover the reasons for this increasing ac ceptance of Chrysler leadership in quality and value if you will test the car yourself
